- Cross-fertilization of ideas, needs, opportunities

TESTIMONIALS

“In less than one year, Kirchner brought both its expertise and experience to bear and today we are seeing the positive results of their work. With the assistance of Kirchner, the company has seen a substantial improvement in both gross margin and EBITDA, in part because of improved production practices and a reduction in overall costs. This coupled with a significant reduction in excess inventory has allowed the company to pay down a large portion of its senior debt.”

— Sheryl Hilash, VP Concentra Financial

“Kirchner was able to step into a complicated situation involving operational problems, management issues and differing agendas amongst investors and develop a comprehensive, practical turnaround plan. They provided us with an experienced turnaround CEO who immediately took charge of a very demanding situation and rapidly implemented a number of measures. Kirchner was able to maintain the existing revenue level, improve gross margins and regain investor confidence. Over the course of a year, the company was stabilized and ultimately was able to successfully go public on the AIM exchange representing a significant increase in value. We were impressed with the work Kirchner provided and would use them again without hesitation.”

— Vincenzo La Ruffa, Susquehanna International Group, LLP
